

FAMILY DOCTOR WEEK

in Canada

NOVEMBER 10-15, 2014

WEEK

DOCTOR

FAMILY

Domina thinks her doctor rocks because she has been an exemplary doctor to her since being discharged from the Cross Cancer Institute. Domina's doctor has seen her through many ordeals including a major car accident, two difficult pregnancies, an emergency appendectomy, and ongoing and significant chronic pain issues. Domina's doctor always takes the time to listen to Domina's concerns with empathy and understanding.
