

# FAMILY DOCTOR WEEK

in Canada

NOVEMBER 10-15, 2014

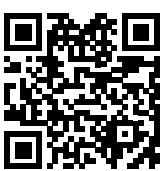

The Hull Family thinks their family doctor rocks because he is kind, courteous, smart, and most importantly, gets things done! He does a wonderful job taking care of their family. He has figured out more health problems for their family than any other doctor, and will not hesitate to book them in for other specialty clinics until he figures out the problem. The Hull family truly feels that he cares about all his patients and that he is the best doctor they have ever had.
