Dear Dr. Allan:

Thank you for providing The College of Family Physicians of Canada (CFPC) with the opportunity to review for endorsement *Simplified Lipid Pathway: Prevention & Management of Cardiovascular Disease Risk in Primary Care*. We are pleased to inform you that the CFPC has granted endorsement for this resource.

We thank you for addressing all of the questions that were raised by our reviewer's feedback. The family physician commentary was very positive overall, and the guideline was considered a valuable resource that provides primary care physicians with the knowledge to use a simplified approach to primary prevention of cardiovascular disease risk.

Our endorsement allows you to include the CFPC's name and corporate logo on communication regarding *Simplified Lipid Pathway: Prevention & Management of Cardiovascular Disease Risk in Primary Care* and supporting literature. As discussed, an electronic copy of our logo is provided for your use.

CFPC endorsement pertains to these materials and acknowledges that they are consistent with the principles of family medicine and of benefit to family physicians and their patients. It does not imply financial support for promotion and dissemination of materials. It would be appreciated that you inform the CFPC if you wish to use this endorsement for any reason beyond this intent.

In conclusion, the CFPC would like to thank you for providing us with the opportunity to review *Simplified Lipid Pathway: Prevention & Management of Cardiovascular Disease Risk in Primary Care*.
